

Model 240

Diagnostic Audiometer

- Easy to use
- Compact and fully portable
- Lightweight – only 715 grams
- Threshold retention function
- Optional insert headphones
- 11 test frequencies
- -10 to 120 dBHL range (AC)
- Optional battery powered feature
- Integral talk over function
- Optional NOAH interface

The **Amplivox 240** is an inexpensive diagnostic audiometer, which is ideal for both desktop and mobile use.

Functionality

The **Amplivox 240** offers air and bone conduction audiometry. Standard features include silent operation selectors, narrow band masking, an attenuator range up to 120 dBHL and easily read displays.

Ease of Use

The clearly laid out control panel makes diagnostic testing as simple and

straightforward as possible. The threshold retention function reduces test time and gives a higher level of test subject concentration. Results can be saved in memory, printed with the optional printer and/or transferred to a PC with the optional NOAH interface.

Fully Portable

Designed to satisfy all domiciliary testing requirements, the **Amplivox 240** can be supplied with an optional battery power function in addition to the standard mains power adaptor. Its compact size, lightness and power options make this a totally portable diagnostic audiometer.
