- Air, bone and speech audiometry
- Totally portable
- Optional battery power function
- Weighs just 715 grams
- Optional insert earphones
- Threshold retention function
- Compact and easy to use
- 11 test frequencies
- -10 to 120 dBHL range (AC)
- Optional NOAH interface

The **Amplivox 260** audiometer incorporates many innovative features which make it the ideal choice for conducting diagnostic audiometry. Specifically designed for operator ease of use and with a weight of just 715g, the **Amplivox 260** is very portable.

Functionality

The **Amplivox 260** offers air conduction, bone conduction and speech audiometry. Standard features include broad and narrow band masking, together with a number of specialist tests.

Ease of Use

A reduced test time and a higher level of test subject concentration are made possible by the threshold retention function. Results can be saved in memory, printed with the optional printer and/or transferred to a PC with the optional NOAH interface.

Totally Portable

Able to use either mains or optional battery power, the **Amplivox 260** is very compact and has the flexibility to be used as a desktop or portable diagnostic audiometer.
